Guidelines for Using Nuventive to Generate Reports for Program Review Retention Operational Outcomes

Guide Objectives

- 1. Provide you the campus definitions of retention.
- 2. Explain how to set up operational outcomes in Nuventive so that you can input operational outcome data each year for non-accredited programs or as dictated by accreditors for programmatically accredited programs.
- 3. Explain how to map operational outcomes to SUNY Broome's strategic plan.
- 4. Explain how to upload documents into the Program Review Document Repository for your program.
- 5. Explain how to run a report on operational variable in Nuventive to address this data in a program's five-year program review narrative.

Retention Definitions

- 1. *First-Time, Full-Time, Fall-to-Fall Retention*: This retention variable is defined as the number of first-time, full-time students who retain from the fall semester in an academic year to the fall semester in the next academic year.
- 2. *First-Time, Full-Time, Fall-to-Spring Retention*: This retention variable is defined as the number of first-time, full-time students who retain from one fall semester to the spring semester in the same academic year.

All programs are to use the above definitions of retention. These two retention definitions constitute two of the operational variables that the campus sets for non-accredited programs. If programs are accredited, they should use the retention definition dictated by their programmatic accreditor. If an accreditor does not have a specified definition, then the program should utilize the campus' definitions outlined above.

Each program will be provided with access to the Argos reports on retention. The reports will provide three years' worth of retention data for each of the defined retention variables.

Setting Up Retention Operational Outcomes

Step One: Sign onto Nuventive and select the program review section for your program. The photo below shows Computer Information Systems AS (non-transfer) being selected.

🗙 Nuventive. Improve	Program Review - Computer Information Systems AS (non-transfer)	•

Step Two: Click on "Operational Outcomes" on the sidebar.

Step *Three*: Click on the green plus button to the right, and then you will see data entry fields open up.

* Program Operational Outcome						
Operational Outcome Status	\$					
Planned Assessment Years						
Start Date						
Archived Date						t
	* Required field					

Step *Four*: Set the fields up for *First-Time*, *Full-Time Fall to Fall Retention* by inputting the Information below.

Operational Outcomes Name:	FT-FT-FF Retention
Program Operational Outcome:	First-Time, Full-Time, Fall to Fall Retention
Operational Outcomes Status:	Active
Planned Assessment Years:	Ongoing
Start Date:	Input the date you are setting this field up.
Archived Date:	Leave this field blank.

After inputting the data into these fields, hit "Save" and then "Return."

		🖺 Save	•	<table-cell-rows> Retur</table-cell-rows>
* Operational Outcome Name	FT-FT-FF Retention			
Program Operational Outcome	First-Time, Full-Time, Fall to Fall Retention			
Operational Outcome Status	Active \$			
Planned Assessment Years	Ongoing X			
Start Date	02/25/2019			
Archived Date				

Step *Five*: After you set up the operational outcomes in step four and hit "Save" and "Return," you will then enter the "assessment measure." Click the green plus button next to "Measure" and enter data into the fields. Input the following information:

Assessment Type:	BCC Requirement
Assessment Measure:	Assessment program average on FT-FT-FF Retention rate for the
	year against institutional average for the year.
Benchmark:	Meet or exceed institutional FT-FT-FF Retention rate for each
	year.
Notes:	Leave this blank.

The screen should look like below when done.

Active	
Assessment Type	BCC Requirement
* Assessment Measure	Assessment program average on FT-FT-FF Retention rate for the year against institutional average for the year.
Benchmark	Meet or exceed institutional FT-FT-FF Retention rate for each year.
Notes	

* Required field

Step Six: To input retention findings for a year, click on the "Updates" tab on the side bar.

Click on the green plus sign to the right for the variable in which you wish to add data. The screen shot shows "BCC Requirement Assessment program average on FT-FT-FF Retention rate for the year against institutional average for the year." When you click, the field will expand.

Program Review - Computer Information Systems AS (non-transfer) > Program Data > Updates	
(9) FT-FT-FF Retention First-Time, Full-Time, Fall to Fall Retention	Add Update
BCC Requirement Assessment program average on FT-FT-FF Retention rate for the year against institutional average for the year.	Ó

You will need to input data into their fields.

Update Date:	Input date you are entering outcome data
Update:	Discuss the last three years of retention data. You will need to run an operational outcomes report in Nuventive to do this.
Update Period:	Input the academic year in which the update period is occurring. The screen shot shows this year (2018-2019) as the update period. Remember that the reports provided are retrospective. In 2018 – 2019, the program is reporting on data that is available for 2015-16, 2016-17, 2017-18.

Conclusion:	Describe if the benchmark was met by selecting from the pulldown menu. Benchmark met would mean the program achieved or exceed the institutional average for retention each of the three years for data reported; otherwise, it's partially met.
What program streng	oths contributed to this data?
vi nat program strong	Provide evplanation as appropriate
	r tovide explanation as appropriate.
How will you use th	is data to improve the program?
now will you use in	Dravida avalanction as annonista
	Provide explanation as appropriate.
What was implemen this cycle?	ted as a result of the last cycle's data that influenced data collection
	Provide explanation as appropriate
	round on promotion as appropriate.

Once you enter data, hit "Save."

Repeat the above steps for entering date for *First-Time, Full-Time Fall to Spring Retention*. The definitions for setting up this variable are as follows:

Operational Outcomes Name:	FT-FT-FS Retention
Program Operational Outcome:	First-Time, Full-Time, Fall to Fall Retention
Operational Outcomes Status:	Active
Planned Assessment Years:	Ongoing
Start Date:	Input the date you are setting this field up.
Archived Date:	Leave this field blank.

Once these operational variables are set up, you do not need to continually set them up in Nuventive. You will need to enter data each year and discuss if the program met the established benchmark and make notes on any quality improvement process updates for the year.

Mapping Program Operational Outcomes

Operational outcomes need to be mapped to the campus strategic priorities.

Step One: Sign onto your program review area in Nuventive.

Step Two: Select "Mapping" on the side bar and "Program Operational Outcomes Alignment"

Program	n Review - Computer Information Systems AS (non-transfer)
? i 🖃 🏹	er Information Systems AS (non-transfer) $>$ Program Review Unit $>$ 5 Yr Program Rev
🖀 Home	Narratives
🥟 Program Data 🗸	
🔒 Mapping 🗸 🗸	
 Program Operational Outcomes Alignment 	
Reports Prog	ram Operational Outcomes Alignment
🗅 Documents 🗸 🗸	
·	

- Step Three:Click on the following Strategic Objectives for both First-Time, Full-Time, Fall-
to-Fall Retention and First-Time, Full-Time, Fall-to-Spring Retention variables.
These are the strategic objectives to which the campus retention variables should
be mapped.
 - Diversity and Inclusion Strategic Objective 2 "Increase the recruitment, retention....students"
 - Teaching and Learning Strategic Objective 1 "Continually assess and evaluate courses and programs.... Compliance."
 - Teaching and Learning Strategic Objective 5 "Improve performance on student success indicators"

When you click in the box to map, it will look like the screenshot below. Once you click, always hit "Save" at the top right.

SUNY Broome Community College 2017 - 2 🔻	Program Operational Outcomes
Strategic Objectives	FT-FT-FF Retention First-Time, Full-Time, Fall to Fall Retention
Diversity and Inclusion - Strategic Objective 1 Increase intentionality in leadership that demonstrates commitment to diversity and	
Diversity and Inclusion - Strategic Objective 2 Increase the recruitment, retention and graduation of underrepresented students	*
Diversity and Inclusion - Strategic Objective 3 Expand the recruitment and retention of diverse faculty, staff and administration	
Diversity and Inclusion - Strategic Objective 4 Enhance learning experiences inside and outside the classroom that will help studer	

Please note that once you have established the mapping for the retention operational variables, you will not need to do this again, unless edits need to be made to the mapping. Edits might need to be made when updates to the strategic plan occur.

Uploading Faculty Minutes into the Document Repository in the Program Review Area

Step One: Go to the program review area for your program in Nuventive and click on "Documents" on the left side bar and then click on "Document Repository."

Step Two: Click on the arrow next to "General" and click on "Add Folder".

	Nuventive. Improve	Program Review - Clinical Laboratory Technician AAS 🔹	0 🗳 Welcome, 🚽

How to Run a Nuventive Report on an Operational Outcome for Program Review

At the time of your program review, you will need to run a report on your operational outcomes to be able to discuss them in your program review narrative and to assess your performance on them over the five-year period covered in your program review. Running reports is not hard!

Step One: Sign onto the program review section for your program in Nuventive.

The below screenshot shows the user in the pull-down menu selecting "Program review – Computer Information Systems AS (non-transfer)"

The program would discuss its performance on retention operational outcomes in the "Section Four – Outcomes Results and Continuous Improvement: Program Operation Outcomes Attainment" section of the five-year program review narrative. Once the program has set up the retention operational outcomes in Nuventive, it will be able to run reports to assist itself in discussing operational outcomes in its program review.
