RE: CHM 128

I have reviewed the recommendation from the General Education Committee regarding CHM 128, which stated that, as it is currently proposed, the course does not fit the SUNY-GER Natural Science General Education category. There is no doubt that this course is both valuable and important to our students and campus. Based on this information provided to me, I agree with the General Education Committee at this time. However, I would also hope that, if there is still an interest in CHM 128 being listed as a general education course, that the feedback provided would be considered and incorporated into the course and the proposal.

Thank you for your time and efforts.
